Bonds: News & Comments

Fund accumulations

Banks continued to accumulate funds at banks' correspondent accounts with the NBU, increasing this indicator by UAH0.83bn to UAH43.52bn yesterday, the largest amount since mid-February 2016, most likely due to month-end tax payments and in anticipation of longer-term CDs or primary auctions held yesterday and today. Most likely, a large portion of liquidity will be paid today for bonds purchased at yesterday's auction, the same as the MoF has a chance to sell about UAH1.0bn of new 3-year bonds today.

Taras Kotovych, Kiev, +38044 2200120 ext.724

Primary auction results

Last week's reduction of the CD and NBU key interest rates should not have an impact on the primary bond market. Moreover, yesterday's demand for government bonds exceeded that seen at all previous auctions this year allowed the MoF to decrease interest rates for new borrowings. The MoF, having received eight bids for UAH3.96bn (par value) of the 3-year bond at interest rates ranging from 18.40% to 20.00%, accepted only two bids at the lowest interest rates, selling UAH2.80bn of bonds (par value) at an 18.44% weighted average interest rate, resulting in a YTM of 19.35%.

Taras Kotovych, Kiev, +38044 2200120 ext.724

Yield curve of the local bond market
