

Bond Market Insight

Government bond auction results: Partial refinancing of debt repayments

WEDNESDAY, 16 APRIL, 2014

The MoF successfully sold only the 3-month bond offering yesterday, which was reopened after last week's successful issuance, while the 9-month local currency and 3-month USD-denominated bonds received no bids.

The 77-day maturity bond, which received a single bid for UAH600.0m (par value) at the same 9.95% interest rates as last week's successful bid, was accepted fully and provided the state budget with UAH587.66m of proceeds. The other two bonds received no bids and their offerings were cancelled.

Table 1. Details of last government bond auction

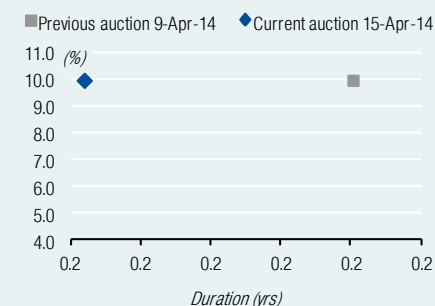

ISIN	Coupon rate (%)	Payment freq ¹	Maturity	Qty of bonds sold	Price (UAH)	Pro-ceeds ² (UAHm)	Volume ² (UAHm)	YTM ³ (%)	Out-standing (m)
UA4000180319	0.00		2-Jul-14	600,000	979.44	587.66	600.00	9.95	1,000.00
Total				600,000		587.66	600.00		1,000.00

Note: Note: [1] payment frequency abbreviations: Q - quarterly, SA - semi-annually; [2] proceeds and volumes for the USD-denominated bonds are calculated based on the previous day last price of USD/UAH exchange rate 1; [3] yields on coupon-bearing bonds are effective yields to maturity. Sources: Ministry of Finance of Ukraine, Bloomberg, Investment Capital Ukraine LLC.

Similar to last week, the MoF refinanced the majority of the debt interest repayments scheduled for the week, of which 80% of the UAH728.42m in scheduled interest repayments was refinanced with yesterday's proceeds.

Although the MoF's objective is to hold successful primary auctions and zero-coupon bond offerings to attract market demand, the low interest rate at a high volume in a single bid indicates that this demand was supported by domestic QE, particularly since the current money market interest rate is at least 2x higher.
